

ALL-WEATHER WICKER CARE

Use a dry, clean cloth to dust your furniture weekly and help maintain its luster. To clean your furniture, spray off any dirt or debris with a hose and wipe dry with a soft cloth. Avoid letting water stand on the surface of your furniture and cushions.

Although UV filters are added in the manufacturing process, the sun will eventually wear down the product. We recommend that you protect your furniture and prolong its life with our all-weather wicker cleaner and protector. This product will clean and prolong the all-weather wicker against discolouration and cracking caused by UV rays and the weather.
